LANGUAGE SKILLS

Mother tongue(s): Gujarati

Other language(s): English | Hindi

PROJECTS

[01/10/2026 – 08/10/2026]

Portfolio Website Designed and developed a personal portfolio website using Next.js to showcase my technical skills, professional experience, and projects. Created a clean, responsive, and user-friendly interface to present my work and make my CV easily accessible. Deployed the website on Vercel to establish a professional online presence and demonstrate my web development capabilities.

[01/01/2026 – 10/06/2026]

Project Management System (PMS) Developed a Project Management System (PMS) to simplify project organization, task tracking, and team collaboration. The application helps users manage projects, monitor task progress, and keep project-related information organized in one place. Built with a modern web technology stack, the system focuses on usability, efficient workflow management, and a responsive user experience.

[01/07/2025 – 30/06/2026]

Promoprep Promoprep is a task and activity management system designed to streamline a company's daily operations across different organizational levels. It allows users to manage multiple activities in one place, set daily reminders, and track task progress efficiently. Company heads can analyze task performance, monitor overall business growth, and download activity reports for specific months or years to support better decision-making. I developed many major functionalities in admin side while working as a Angular developer in Tagline infotech LLP.

[01/07/2025 – 30/06/2026]

Launch On Demand Launch On Demand is an aerospace and commercial space services company that supports launch operations through regulatory licensing, mission management, and spaceport technical services. The company provides solutions for launch planning, safety coordination, weather monitoring, and launch integration to help make commercial space missions more efficient and reliable. I developed flight and marine related functionality and video capture functionality across the project during my work in Tagline infotech LLP.
